Information about the anti-CD22 Immunotherapeutics pipeline is provided in a tabular format and fully referenced.

Methodology:

Information released during the previous month is retrieved from a variety of sources including corporate press releases and statements, quarterly company business reports, SEC filings, company presentations, company websites, interviews, webcasts, journal articles, scientific abstracts and reviews, relevant scientific meetings, clinical trial databases, and La Merie Publishing's proprietary database. Relevant information is presented in textual and tabular formats with disclosure of scientific references or by a hyperlink leading to the source of information.

Customized Update Service:

The above described information service represents our standard module. At an incremental cost, the service can be exclusively widened and customized to specific client needs, e.g. preparation of a preferred presentation format, inclusion of a watch list for tracking, executive summary etc.
