Competitor Analysis: Activators of Immune Checkpoints CD40, GITR, OX40, 4-1BB, CD27 & ICOS

This Competitive Intelligence report about Activators of Immune Checkpoints CD40, GITR, OX40, 4-1BB, CD27 & ICOS provides a competitor evaluation as of November 2016 in the field of antibodies, proteins and vaccines stimulating immune checkpoints from the TNF receptor and the B7-CD28 superfamilies, including

CD40 (TNFSFR5)

GITR (Glucocorticoid-Induced Tumor Necrosis Factor Receptor; TNFSFR18)

OX40 (CD134; TNFSFR4)

4-1BB (CD137; TNFSFR9)

CD27 (TNFSFR7)

ICOS (Inducible Co-Stimulator)

Purchase of the downloadable pdf report includes a 6-month online access to the data of the report and any updates since the publication date as well as the clinical and preclinical combination studies. Credentials to access the database will be sent by e-mail and allow online work with the project data to print or export an individual report.

More than 20 immune checkpoint agonistic antibodies are in clinical development as monotherapy or in combination with other checkpoint modulators or targeted cancer therapeutics. At least further six molecules are undergoing IND-enabling studies.

The report includes a compilation of currently active projects in research and development of immune checkpoint activators. In addition, the report lists company-specific R&D pipelines of PD-1 and PD-L1 Immune Checkpoint Inhibitors. Competitor projects are listed in a tabular format providing information on:

Drug Codes,

Target / Mechanism of Action,

Class of Compound,

Company,

Product Category,

Indication,

R&D Stage and

additional comments with a hyperlink leading to the source of information.

About Competitor Analysis Series:

The Competitor Analysis Series delivers NO-FRILLS, but concise information about the pipeline of R&D projects for targets, diseases, technologies and companies at low prices. The information is provided in a tabular format and fully referenced.

Contents

1) Immune Checkpoint Activators

CD40 Agonists

Glucocorticoid-Induced Tumor Necrosis Factor Receptor (GITR) Stimulators

OX40 Agonists

4-1BB (CD137) Agonists

CD27 Agonists

Inducible Co-Stimulator Molecule (ICOS) Agonists

Other Activators

2) Corporate Immune Checkpoint Activators R&D Pipeline
