Abstracts

The Competitive Intelligence Report FSH, hCG and LH: Therapeutic Proteins for Assisted Reproductive Technology (ART) as of February 2013 provides a competitor analysis in the development pipeline of novel recombinant and purified FSH, hCG and LH receptor agonists for treatment of infertility.

Purchase of the downloadable pdf report includes a 6-month online access to the data of the report and any updates since the publication date. Credentials to access the database will be sent by e-mail and allow online work with the project data to print or export an individual report.

The report provides information on the marketed FSH, hCG and LH preparations and includes a compilation of current active projects in research and development of novel FSH, LH and hCG receptor agonists. In addition, the report lists company-specific R&D pipelines of FSH, LH and hCG products and projects. Competitor projects are listed in a tabular format providing information on:

Drug Codes,

Target / Mechanism of Action,

Class of Compound,

Company,

Product Category,

Indication,

R&D Stage and

additional comments with a hyperlink leading to the source of information.

About Competitor Analysis Series:

The Competitor Analysis Series delivers NO-FRILLS, but concise information about the pipeline of R&D projects for targets, diseases, technologies and companies at low prices. The information is provided in a tabular format and fully referenced.
