Abstracts

Product description

R&D Pipeline News is your weekly tool for analysis of biopharmaceutical R&D. It is available by monthly or annual subscription. The annual subscription consists of 50 issues, the monthly of four or five issues.

R&D Pipeline News Therapeutic Area Edition will keep you up-to-date with the latest R&D projects of the biopharmaceutical industry, with all the relevant treatment modalities and with competitive information about ongoing R&D projects for a given Target, Technology or Company.

R&D Pipeline News Therapeutic Area Edition will keep you up-to-date with the latest R&D projects of the biopharmaceutical industry, with all the relevant treatment modalities and with competitive information about ongoing R&D projects for a given Target, Technology or Company.

The R&D information is presented in an easy- and rapid-to-screen tabular format and sorted by Product Categories.

The **Therapeutic Area Edition** lists the News in groups according to the product category, e.g. antibodies or vaccines etc. The product is delivered every week via e-mail as a PDF document directly to your desktop.

One-month and one-year subscriptions are available as single user license, departmental license, site license and global license. After completion of the purchase process, we will get in touch with you to gather the e-mail addresses of your institution for individual desktop delivery.

What is R&D Pipeline News?

R&D Pipeline News is a premier information source about research and development (R&D) projects in the pipeline of the biopharmaceutical industry and is directed to all stakeholders in R&D. R&D Pipeline News covers all relevant treatment modalities, incl. drugs, medical devices, biomaterials, combination products, cell therapy and drug delivery products. The news are retrieved from business as well as scientific communications over all stages of the R&D process - from research to approval.
