Neonatal Equipment Market in India 2010-2014

Date:	February 1, 2011
Pages:	46
Price:	US\$ 1,179.00 US\$ 590.00
ID:	N7C27688C77EN

The Neonatal equipment market is having a spectacular growth rate from past few years in India. The market grew at an average rate of more than 25 percent in the past three years. High Neonatal Mortality Rate (NMR), investment by Government, participation by social organizations, rising middle class income, growing healthcare awareness, and growth in corporate hospitals (especially in Tier II and Tier III cities) are some of the factors driving the growth.

Leading multinational companies, medium sized domestic companies, importers and large number of small domestic companies operate in the Indian Neonatal Equipment market. The market is dominated by multinational companies in the premium segment and domestic players in the low cost segment.

The report analyses and forecasts the Indian market for Neonatal Equipments. It provides current market values and future prospects of the market. It discusses the trends and drivers in the market, along with the examination of vendor landscape. The report also analyses various distribution channels and partners for Neonatal Equipment Market in India.
