Abstracts

Belgium oil storage industry report is a complete study focusing on oil, chemicals and petroleum products storage infrastructure, demand and near to long term future of Belgium market.

Demand for both crude oil and refined products is witnessing strong growth across Belgium. In particular, with fluctuations in oil and product prices, countries are developing adequate storage facilities. In addition, government is also assessing strategic petroleum reserves and supply options. Surge in economic activity and growth in construction and transportation demand are driving demand for petroleum products in the country. New storage construction activities are also likely to witness significant progress over the near term future.

New petroleum product consumption mix is emerging in Belgium, forcing traders and refiners to equip adequate storage facilities for uninterrupted and efficient supply chain system. In this context, the leading industry publisher has released its 10th version of "Belgium Long-term Oil Storage outlook report", offering analysis on Belgium midstream oil and gas markets. The Belgium oil storage report provides detailed insights into emerging market trends, new dynamics, shifting strategies and the future role of Belgium in global and regional storage markets.

The Belgium report is a comprehensive research work covering details of Belgium storage infrastructure, key operators, production, consumption and trading of major

petroleum products, volumes and values, current and planned terminal details and competitive scenario. At the asset level, terminal wise capacity is forecast to 2022.

Details of all operational and planned oil, chemicals and product storage terminals in the country including start up, location, tanks, capacity, operator, commodity, owners and capex details are included in the research work. Further, terminal by terminal capacity outlook of each storage terminal is provided in the historic and forecast period.

The Belgium research work also presents detailed outlook of Belgium gasoline, diesel, LPG, fuel oil consumption and production, together with trends and challenges of investing in Belgium market. In addition, details of storage assets, prices are provided. Further, demographic, economic outlook of Belgium together with latest storage industry developments are covered in detail.
