Abstracts

During 2017 and 2018, increase in investor confidence was observed across most LNG markets including Egypt. Planned projects witness considerable progress with increase in supply volumes anticipated over the short term future. Further, recovering global conditions and strong outlook for gas based applications worldwide are spurring interest in Egypt and global LNG markets. The global LNG trade in 2017 witnessed strong growth rates after 2009 to 292.5 million tonnes. Both new liquefaction and regasification capacities are coming online after couple of stagnant years. Further, the market is expected to be buyer oriented at least till 2022, providing strong opportunities for active and upcoming regasification markets.

After period of uncertainty, Egypt companies are formulating long term strategies to succeed in global LNG market. In this context, the leading industry publisher has released its 12th version of “Egypt Long-term LNG outlook report”, spanning analysis across entire Egypt LNG value chain.
