Abstracts

Egypt oil storage industry report is a complete study focusing on oil, chemicals and petroleum products storage infrastructure, demand and near to long term future of Egypt market.

Demand for both crude oil and refined products is witnessing strong growth across Egypt. In particular, with fluctuations in oil and product prices, countries are developing adequate storage facilities. In addition, government is also assessing strategic petroleum reserves and supply options. Surge in economic activity and growth in construction and transportation demand are driving demand for petroleum products in the country. New storage construction activities are also likely to witness significant progress over the near term future.

New petroleum product consumption mix is emerging in Egypt, forcing traders and refiners to equip adequate storage facilities for uninterrupted and efficient supply chain system. In this context, the leading industry publisher has released its 10th version of "Egypt Long-term Oil Storage outlook report", offering analysis on Egypt midstream oil and gas markets. The Egypt oil storage report provides detailed insights into emerging market trends, new dynamics, shifting strategies and the future role of Egypt in global and regional storage markets.

The Egypt report is a comprehensive research work covering details of Egypt storage infrastructure, key operators, production, consumption and trading of major petroleum

products, volumes and values, current and planned terminal details and competitive scenario. At the asset level, terminal wise capacity is forecast to 2022.

Details of all operational and planned oil, chemicals and product storage terminals in the country including start up, location, tanks, capacity, operator, commodity, owners and capex details are included in the research work. Further, terminal by terminal capacity outlook of each storage terminal is provided in the historic and forecast period.

The Egypt research work also presents detailed outlook of Egypt gasoline, diesel, LPG, fuel oil consumption and production, together with trends and challenges of investing in Egypt market. In addition, details of storage assets, prices are provided. Further, demographic, economic outlook of Egypt together with latest storage industry developments are covered in detail.
