Abstracts

During 2017 and 2018, an increase in investor confidence was observed across most LNG markets including Kuwait. Planned projects witness considerable progress with increase in LNG supply volumes anticipated over the short term future. Further, surplus LNG availability, low prices and strong outlook for gas based applications worldwide are spurring interest in Kuwait and global LNG markets. The global LNG trade in 2017 witnessed strong growth rates after 2009 to 292.5 million tonnes. Both new liquefaction and regasification capacities are coming online after couple of stagnant years. Further, the market is expected to be buyer oriented at least till 2022, providing strong opportunities for active and upcoming regasification markets.

After period of delays, Kuwait companies are formulating long term strategies to develop required infrastructure in global LNG market. In this context, the leading industry publisher has released its 12th version of “Kuwait Long-term LNG outlook report”, offering analysis across entire Kuwait LNG value chain. The Kuwait LNG report provides detailed insights into emerging market trends, new dynamics, shifting strategies and the new role of Kuwait in global and regional scale.
