## **Abstracts**

During 2017 and 2018, increase in investor confidence was observed across most LNG markets including Nigeria. Planned projects witness considerable progress with increase in supply volumes anticipated over the short term future. Further, recovering global conditions and strong outlook for gas based applications worldwide are spurring interest in Nigeria and global LNG markets. The global LNG trade in 2017 witnessed strong growth rates after 2009 to 292.5 million tonnes. Both new liquefaction and regasification capacities are coming online after couple of stagnant years. Further, the market is expected to be buyer oriented at least till 2022, providing strong opportunities for active and upcoming regasification markets.

After period of uncertainty, Nigeria companies are formulating long term strategies to succeed in global LNG market. In this context, the leading industry publisher has released its 12th version of "Nigeria Long-term LNG outlook report", spanning analysis across entire Nigeria LNG value chain. The Nigeria LNG report provides detailed insights into emerging market trends, new dynamics, shifting strategies and the new role of Nigeria in global and regional scale.

The report is a complete research work covering details of Nigeria LNG supply patterns, key suppliers, volumes and values, industry revenues, current and planned infrastructure details and competitive scenario. The Nigeria research work also presents detailed outlook of Nigeria LNG supply, concluded and upcoming medium and long term contracts (SPAs, HOA, MOUs), together with trends and challenges of investing in Nigeria market.
