Abstracts

The Global LNG Outlook report from LNG ANALYSIS is a comprehensive research work with detailed analysis on the future of global LNG markets. Amidst rapid changes in market including European recession, delays in Australian LNG projects, approvals of the US liquefaction projects, increasing investments in African upstream, growth in spot volumes in South Central America, Asian and European shale prospects and FLNG developments, the report provides complete outlook of each of the LNG countries to 2020. Further, LNG investment outlook, supply - demand forecasts, capacity forecasts, technology insights are discussed in detail. The research work also evaluates the pros and cons of new project developments along with their current status, feasibility and likely impact on global markets. Further, opportunities in small and medium scale LNG and Floating LNG are evaluated.

Backed up by strong quantitative data, insights in the report aid you in formulation of your expansion, retention strategies and in merger and acquisition decisions. Feasibility of new terminals, latest trends and challenges along with short and long term outlook of all exporting and importing countries is discussed in detail.

Scope

70 key LNG Trends and challenges on global and 6 regional markets analyzing the market outlook in short term and long term future

Supply and demand outlook for 70 countries from 2000 to 2020

Capital investment outlook by type, by region, FLNG and for 30+ countries

between 2012 and 2020

Current status of shale activities in 31 countries and the possible impact on LNG industry

Evaluation of investment and supply/ import opportunities in 26 New markets worldwide

Details of 139 operational and 129 planned LNG terminals including - current status, capex, start up, operator, owners, trains, capacity, location, constructor, technology and others

Terminal wise Outlook for liquefaction/ Regasification capacity, contracted/ spare capacity, trains, storage capacity and tanks

Competitive landscape, market structure, NOCs vs IOCs, active players/ new entrants along with capacity outlook of top five companies to 2020

Growth scope of FLNG markets with investments, capacity outlook, competition, technology, terminal details and impact on trade

Contents

1 TABLE OF CONTENTS

- 1.1 List of Tables
- 1.2 List of Figures

2 TOP 10 GLOBAL LNG TRENDS TO 2020

- 2.1 LNG Markets to Remain Tight till 2015 amidst Delays in construction of Liquefaction Terminals
 - 2.1.1 Global LNG Supply and Demand Forecast by Region, 2000- 2020
 - 2.1.2 Adequate LNG Supplies Expected Beyond 2016
 - 2.1.3 Global Upcoming LNG Supply Additions by Region- New Terminals and Expansions, 2013- 2020
- 2.2 Europe to remain price-sensitive LNG buyer market
 - 2.2.1 European LNG Prices vs. European LNG Imports, 2005- 2012
- 2.3 Planned and unplanned maintenance of Liquefaction plants lead to reduced trade volumes
 - 2.3.1 Nine of Eighteen countries reduced their supplies due to planned/unplanned maintenance in 2012
- 2.4 Global LNG industry to attract \$550 billion capital investments (capex) between 2012 and 2020
 - 2.4.1 Global Annual LNG Capex by Region, 2012- 2020
 - 2.4.2 Global Annual LNG Capex by Type, 2012- 2020
- 2.5 South and Central America to Emerge as the New LNG Import destination
 - 2.5.1 South Central America Countries to Import around 30 Million Tonnes LNG in 2020
- 2.6 New discoveries in East Africa attracting investors and majors
 - 2.6.1 Planned LNG Terminals in East Africa
- 2.7 Growing investments in Europe and Asia Shale Gas to Impact LNG Trade but only after 2020
 - 2.7.1 Current Status of Shale Gas Exploration Activities in Asia Pacific
 - 2.7.2 Current Status of Shale Gas Exploration Activities in Europe
 - 2.7.3 Current Status of Shale Gas Exploration Activities in Africa
 - 2.7.4 Current Status of Shale Gas Exploration Activities in North America
 - 2.7.5 Current Status of Shale Gas Exploration Activities in South and Central America
- 2.8 Japan, Singapore and Shanghai Compete for Emerging as the Asian LNG Hub
- 2.9 Growing Domestic Demand in Liquefaction markets Impacting Supply

- 2.9.1 Indonesia and Malaysia witnessing strong surge in gas demand
- 2.9.2 Egypt planning Regasification terminals to meet its LNG export contracts
- 2.10 ConocoPhillips Cascade Process Emerges as the Preferred Liquefaction Technology

3 GLOBAL LNG OUTLOOK TO 2020

- 3.1 Global LNG Trade Volume to stand at 413.6 million tonnes in 2020
 - 3.1.1 Global LNG trade forecast, 2000- 2020
 - 3.1.2 LNG Trade Imports and Exports by Region, 2012
- 3.2 19 new Regasification and 8 liquefaction markets to Foray into LNG trade
 - 3.2.1 Number of Countries operating in LNG Industry, 2000- 2020
 - 3.2.2 New Entrants into global Liquefaction and Regasification Industry, 2013- 2020
- 3.3 Global LNG Regasification and Liquefaction Capacity Outlook by Region, 2005- 2020
 - 3.3.1 Global LNG Liquefaction Capacity Outlook by Region, 2005- 2020
 - 3.3.2 Global LNG Regasification Capacity Outlook by Region, 2005- 2020
- 3.4 North America plans world's largest liquefaction capacity addition of over 150 mtpa by 2020
 - 3.4.1 Planned LNG Export Terminals in North America- Current Status, Capacity and Feasibility of Operations
- 3.5 Despite Fragmentation, Qatar Petroleum and KOGAS Continue to Dominate Global LNG Markets to 2020
 - 3.5.1 Global Liquefaction Market Competitive Landscape, 2020
 - 3.5.2 Global Liquefaction Capacity by Company Outlook, 2005- 2020
 - 3.5.3 Global Regasification Market Competitive Landscape, 2020
 - 3.5.4 Global Regasification Capacity by Company Outlook, 2005- 2020
- 3.6 FLNG Industry Witnesses Robust Growth with 35 New Terminals Planned by 2020
 - 3.6.1 FLNG Terminals under Operation, October 2013
 - 3.6.2 FLNG Liquefaction Terminals (Planned), 2013- 2020
 - 3.6.3 FLNG Regasification Terminals (Planned), 2013- 2020
- 3.7 Global FLNG Capacity Outlook by country, 2000- 2020
- 3.8 LNG Companies Prefer Proven APCI and ConocoPhillips Technologies to New Technologies
 - 3.8.1 Technology wise Liquefaction Terminals Count and Capacity, 2013
 - 3.8.2 Technology details of Operational Liquefaction terminals
 - 3.8.3 Technology details of Planned Liquefaction terminals, 2013- 2020

4 GLOBAL LNG INVESTMENT OPPORTUNITIES TO 2020

4.1 Current Status of Planned Liquefaction and Regasification Terminals

4.1.1 Global Planned Liquefaction Plants- Current Status

4.1.2 Global Planned Regasification Plants- Current Status Details

4.2 New Markets and New Projects

4.2.1 LNG Investment opportunities in Asia and Oceania

4.2.2 LNG Investment opportunities in Europe and FSU

4.2.3 LNG Investment opportunities in Middle East

4.2.4 LNG Investment opportunities in Africa

4.2.5 LNG Investment opportunities in North America

4.2.6 LNG Investment opportunities in South and Central America

5 REVIEW OF GLOBAL LNG MARKETS IN 2012

5.1 Global LNG Trade Declined first time in 2012 since 1982

5.2 Pluto LNG was the only new supply added in 2012

5.3 Five new Regasification terminals started operations in 2012

5.4 Seven out of Ten LNG importers reduced their LNG Imports in 2012

5.5 Global LNG Trade movements by Country, 2012

5.6 Global Liquefaction and Regasification by Country, 2012

5.7 Liquefaction Markets with no capacity additions tend to increase their utilization rates amidst tight markets

5.7.1 LNG Terminal Utilization Rates by Country- 2013 vs. 2011

5.8 Qatar Petroleum remained the liquefaction market leader and KOGAS-Regasification market leader

6 ASIA PACIFIC - TOP TEN LNG TRENDS TO 2020

6.1 Emergence of new demand centers opens new opportunities for LNG traders

6.2 LNG Suppliers worldwide Target Asian markets as the region will be the Key for global market growth

6.2.1 Asia Pacific Countries to Import 63% of global LNG Supplies in 2020

6.3 Japanese Keen on Developing Nuclear plants but LNG needs to fill the supply gap at least till 2015

6.4 Despite Cost and Labor challenges, Australian Projects Witness Steady Progress

6.5 Papua New Guinea likely to complete PNG LNG-Esso Highlands project as scheduled

6.6 Australia, China, India, Pakistan, Bangladesh, Indonesia keen on exploring shale potential

- 6.6.1 Asia Pacific Shale Gas Markets- Comparative Benchmarking
- 6.7 Asian buyers increasingly contracting with US LNG suppliers
- 6.8 Traditional exporters turn importers to meet LNG Supply Contracts
- 6.9 Traditional and Growing Asian LNG importers to be the drivers of LNG demand in the short term
 - 6.9.1 Delays in Nuclear Plants Restart in Japan Drives demand to around 92 million tonnes in 2015
 - 6.9.2 LNG Import volume of China and India together to increase to almost three fold by 2020
 - 6.9.3 Bangladesh, Pakistan and Vietnam plan to start LNG import plants

7 ASIA PACIFIC LNG OUTLOOK TO 2020

- 7.1 Asia Pacific LNG Market at a Glance, 2013
 - 7.1.1 Industry Overview
 - 7.1.2 Key Figures
- 7.2 Asia Pacific Liquefaction Capacity Forecast by Country, 2005- 2020
- 7.3 Asia Pacific Regasification Capacity Forecast by Country, 2005- 2020
- 7.4 New Capacity Additions in Asia Pacific to 2020
 - 7.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
 - 7.4.2 Regasification Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
- 7.5 Asia Pacific LNG Capital Investment by Country, 2012-2020
- 7.6 Asia Pacific FLNG Capacity Forecast, 2000- 2020
 - 7.6.1 Asia Pacific Floating Liquefaction Capacity Forecast by Country, 2005- 2020
 - 7.6.2 Asia Pacific Floating Regasification Capacity Forecast by Country, 2005- 2020
- 7.7 Asia Pacific Contracted Liquefaction Capacity Forecast by Country, 2012- 2020
- 7.8 Asia Pacific LNG Industry Competitive Landscape
 - 7.8.1 Companies with Active Operations in Asia Pacific
 - 7.8.2 Companies Planning to Foray into Asia Pacific LNG Markets
 - 7.8.3 National Oil Companies Vs. International Oil Companies in Asia Pacific LNG
 - 7.8.4 Asia Pacific Liquefaction Market Structure, 2013
 - 7.8.5 Asia Pacific Regasification Market Structure, 2013
 - 7.8.6 Asia Pacific Liquefaction Capacity Outlook by Company, 2005- 2020
 - 7.8.7 Asia Pacific Regasification Capacity Outlook by Company, 2005- 2020

8 EUROPE - TOP TEN LNG TRENDS TO 2020

- 8.1 Europe LNG to decline in short term but long term forecasts look optimistic
 - 8.1.1 Declining GDP Rates Force Low Gas Demand, Restricting LNG Utilization Rates to Around 30%
 - 8.1.2 Nuclear phase out decision and growing Gas fired power plants to drive Europe gas demand in the long term
- 8.2 Ten new LNG markets to open up in Europe by 2020
 - 8.2.1 Upcoming LNG Markets in Europe, 2013- 2020
- 8.3 Reduced demand, Alternative import modes Force delay in start up of new Europe terminals
- 8.4 Russia keen on developing new liquefaction projects
- 8.5 Five European Countries plan FLNG Terminals to Gain from the US LNG
- 8.6 Shale Exploration is witnessing strong progress but will impact LNG only after 2018
- 8.7 Enagas S.A. continues to be the leading LNG company in Europe
- 8.8 Growth in Renewables and Energy Efficiency to impact Europe gas consumption beyond 2020
- 8.9 IMO- MARPOL to drive LNG usage as marine fuel beyond 2015
 - 8.9.1 MARPOL Annex 6
 - 8.9.2 MARPOL act to drive investments in Small and Medium LNG terminals

9 EUROPE LNG OUTLOOK TO 2020

- 9.1 Europe LNG Market at a Glance, 2013
 - 9.1.1 Industry Overview
 - 9.1.2 Key Figures
- 9.2 Europe Regasification Capacity Forecast by Country, 2005- 2020
- 9.3 Europe Liquefaction Capacity Forecast by Country, 2005- 2020
- 9.4 New Capacity Additions in Europe to 2020
 - 9.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
 - 9.4.2 Regasification Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
- 9.5 Europe LNG Capital Investment by Country, 2012-2020
- 9.6 Europe FLNG Capacity Forecast, 2000- 2020
 - 9.6.1 Europe Floating Regasification Capacity Forecast by Country, 2005- 2020
- 9.7 Europe Contracted Liquefaction Capacity Forecast by Country, 2012- 2020
- 9.8 Europe LNG Industry Competitive Landscape
 - 9.8.1 Companies with Active Operations in Europe
 - 9.8.2 Companies Planning to Foray into Europe LNG Markets
 - 9.8.3 National Oil Companies Vs. International Oil Companies in Europe LNG

- 9.8.4 Europe Liquefaction Market Structure, 2013
- 9.8.5 Europe Regasification Market Structure, 2013
- 9.8.6 Europe Liquefaction Capacity Outlook by Company, 2005- 2020
- 9.8.7 Europe Regasification Capacity Outlook by Company, 2005- 2020

10 MIDDLE EAST - TOP TEN LNG TRENDS TO 2020

- 10.1 Middle East Exporters Prefer Sales to Diversified Markets
- 10.2 Low gas supply and project development costs lead to lower LNG production costs in Middle East
- 10.3 Middle East LNG Exports to increase at 2% AAGR between 2012 and 2020
- 10.4 Qatar companies prefer investing in overseas markets to adding new Capacity in Domestic markets
- 10.5 First Production from Iran likely in 2014
- 10.6 Israel Moors Floating Regasification Terminal temporarily till production from Tamar/Dalit fields commences
- 10.7 Iraq LNG construction tender likely to be announced in 2013
- 10.8 UAE and Bahrain to opt for new Regasification Terminals amidst soaring gas demand
- 10.9 Continued Attacks on Yemen LNG Lead to Lowered LNG Output

11 MIDDLE EAST LNG OUTLOOK TO 2020

- 11.1 Middle East LNG Market at a Glance, 2013
 - 11.1.1 Industry Overview
 - 11.1.2 Key Figures
- 11.2 Middle East Liquefaction Capacity Forecast by Country, 2005- 2020
- 11.3 Middle East Regasification Capacity Forecast by Country, 2005- 2020
- 11.4 New Capacity Additions in Middle East to 2020
 - 11.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
 - 11.4.2 Regasification Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
- 11.5 Middle East LNG Capital Investment by Country, 2012-2020
- 11.6 Middle East FLNG Capacity Forecast, 2000- 2020
 - 11.6.1 Middle East Floating Liquefaction Capacity Forecast by Country, 2005- 2020
 - 11.6.2 Middle East Floating Regasification Capacity Forecast by Country, 2005- 2020
- 11.7 Middle East Contracted Liquefaction Capacity Forecast by Country, 2012- 2020
- 11.8 Middle East LNG Industry Competitive Landscape

- 11.8.1 Companies with Active Operations in Middle East
- 11.8.2 Companies Planning to Foray into Middle East LNG Markets
- 11.8.3 National Oil Companies Vs. International Oil Companies in Middle East LNG
- 11.8.4 Middle East Liquefaction Market Structure, 2013
- 11.8.5 Middle East Regasification Market Structure, 2013
- 11.8.6 Middle East Liquefaction Capacity Outlook by Company, 2005- 2020
- 11.8.7 Middle East Regasification Capacity Outlook by Company, 2005- 2020

12 AFRICA - TOP TEN LNG TRENDS TO 2020

- 12.1 Nigeria, the largest African LNG exporter continues to face construction start up difficulties for its terminals
- 12.2 Algeria, Egypt and Equatorial Guinea lowered their exports during 2012
- 12.3 Amidst declining Europe demand, African exporters target Asian buyers
- 12.4 African LNG Exports to increase at an AAGR of 9.2% between 2012 and 2020
- 12.5 Sonatrach Keen on increasing its Liquefaction Capacity as per Schedule
- 12.6 East African Countries Possess Strong Potential for new LNG Supplies
- 12.7 Angola shipped its first LNG Cargo in June 2013, marking new supplies to global LNG trade
- 12.8 Around 36% of African liquefaction capacity will be available for contracts in 2020
- 12.9 Africa Liquefaction market concentration ratio stood at 71%

13 AFRICA LNG OUTLOOK TO 2020

- 13.1 Africa LNG Market at a Glance, 2013
 - 13.1.1 Industry Overview
 - 13.1.2 Key Figures
- 13.2 Africa Liquefaction Capacity Forecast by Country, 2005- 2020
- 13.3 Africa Regasification Capacity Forecast by Country, 2005- 2020
- 13.4 New Capacity Additions in Africa to 2020
 - 13.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
- 13.5 Africa LNG Capital Investment by Country, 2012-2020
- 13.6 Africa Contracted Liquefaction Capacity Forecast by Country, 2012- 2020
- 13.7 Africa LNG Industry Competitive Landscape
 - 13.7.1 Companies with Active Operations in Africa
 - 13.7.2 Companies Planning to Foray into Africa LNG Markets
 - 13.7.3 National Oil Companies Vs. International Oil Companies in Africa LNG
 - 13.7.4 Africa Liquefaction Market Structure, 2013

13.7.5 Africa Liquefaction Capacity Outlook by Company, 2005- 2020

14 NORTH AMERICA- TOP TEN LNG TRENDS TO 2020

14.1 Over 40 million tonnes of LNG to be exported from North America in 2020

14.2 Investments witness Rapid rise in North America LNG markets

14.3 US Liquefaction projects- the key for global LNG future

14.4 Twelve new liquefaction terminals planned in the US

14.5 Strong Government Support Encourages Canadian LNG Companies to Plan Five new plants

14.6 25 Mtpa of North American LNG already Contracted under Long Term SPAs

14.6.1 The US Contracted LNG Capacity Forecast, 2013- 2020

14.6.2 The US Long and Medium Term SPA Contract Details

14.7 Mexico Gas Demand to bet Met through LNG in short Term and Pipeline gas in long term

14.8 Cheniere Energy, Inc. to emerge as the largest Liquefaction company by 2020 in North America

14.8.1 North America Liquefaction Capacity Outlook by Company, 2005- 2020

15 NORTH AMERICA LNG OUTLOOK TO 2020

15.1 North America LNG Market at a Glance, 2013

15.1.1 Industry Overview

15.1.2 Key Figures

15.2 North America Liquefaction Capacity Forecast by Country, 2005- 2020

15.3 North America Regasification Capacity Forecast by Country, 2005- 2020

15.4 New Capacity Additions in North America to 2020

15.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals

15.4.2 Regasification Capacity Additions through Planned Greenfield and Expansions of Operational Terminals

15.5 North America LNG Capital Investment by Country, 2012-2020

15.6 North America FLNG Capacity Forecast, 2000- 2020

15.6.1 North America Floating Liquefaction Capacity Forecast by Country, 2005- 2020

15.6.2 North America Floating Regasification Capacity Forecast by Country, 2005- 2020

15.7 North America Contracted Liquefaction Capacity Forecast by Country, 2012- 2020

15.8 North America LNG Industry Competitive Landscape

15.8.1 Companies with Active Operations in North America

- 15.8.2 Companies Planning to Foray into North America LNG Markets
- 15.8.3 National Oil Companies vs. International Oil Companies in North America LNG
- 15.8.4 North America Liquefaction Market Structure, 2013
- 15.8.5 North America Regasification Market Structure, 2013
- 15.8.6 North America Regasification Capacity Outlook by Company, 2005- 2020

16 SOUTH CENTRAL AMERICA- TOP TEN LNG TRENDS TO 2020

- 16.1 Boost in Economic Activity Drives LNG demand, forcing it to emerge as Net LNG Importer
- 16.2 South and Central America to account for around 8% of global LNG Trade in 2020
- 16.3 Scope of South Central America LNG Industry Continues to Widen with Eight Importers in 2020
- 16.4 Drought hit Brazil continues to import higher volumes of LNG
- 16.5 Dominican Republic, Bahamas, Jamaica, Argentina, Uruguay, Brazil and Chile plan new LNG terminals
- 16.6 T&T Focuses on South and Central American markets amidst reduced US demand
- 16.7 Countries fail to tap vast unconventional reserves
- 16.8 Spot and redirected Cargoes form major share of Latin American LNG Imports
- 16.9 Petrobras leads the fragmented South Central America LNG market
- 16.10 Venezuela continues to witness delays in its planned LNG projects

17 SOUTH AND CENTRAL AMERICA LNG OUTLOOK TO 2020

- 17.1 South and Central America LNG Market at a Glance, 2013
 - 17.1.1 Industry Overview
 - 17.1.2 Key Figures
- 17.2 South and Central America Liquefaction Capacity Forecast by Country, 2005- 2020
- 17.3 South and Central America Regasification Capacity Forecast by Country, 2005- 2020
- 17.4 New Capacity Additions in South Central America to 2020
 - 17.4.1 Liquefaction Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
 - 17.4.2 Regasification Capacity Additions through Planned Greenfield and Expansions of Operational Terminals
- 17.5 South and Central America LNG Capital Investment by Country, 2012-2020
- 17.6 South and Central America FLNG Capacity Forecast, 2000- 2020
 - 17.6.1 South & Central America Floating Regasification Capacity Forecast by Country, 2005- 2020

17.7 South and Central America Contracted Liquefaction Capacity Forecast by Country, 2012- 2020

17.8 South and Central America LNG Industry Competitive Landscape

17.8.1 Companies with Active Operations in South and Central America

17.8.2 Companies Planning to Foray into South and Central America LNG Markets

17.8.3 National Oil Companies Vs. International Oil Companies in South and Central America LNG

17.8.4 South and Central America Liquefaction Market Structure, 2013

17.8.5 South and Central America Regasification Market Structure, 2013

17.8.6 South and Central America Liquefaction Capacity Outlook by Company, 2005-2020

17.8.7 South and Central America Regasification Capacity Outlook by Company, 2005- 2020

18 ANALYSIS OF TOP FIVE GLOBAL LIQUEFACTION COMPANIES

18.1 Qatar Petroleum

18.1.1 Overview

18.1.2 Key Subsidiaries and Joint ventures

18.1.3 Business Operations

18.1.4 Contact Information

18.1.5 Financial Analysis

18.2 Sonatrach

18.2.1 Overview

18.2.2 Key Subsidiaries and Joint Ventures

18.2.3 Business Description

18.2.4 Contact Information

18.3 Petroliam Nasional Berhard (Petronas)

18.3.1 Overview

18.3.2 Business Description

18.3.3 Contact Information

18.4 Royal Dutch Shell Plc

18.4.1 Key Information

18.4.2 Oil and Gas Operations

18.4.3 Contact Information

18.4.4 Key Financial Information

18.5 Exxon Mobil Corporation- Key Information

18.5.1 Overview

18.5.2 Global Operations

- 18.5.3 Subsidiary, Joint Ventures and Associated Company Operations
- 18.5.4 Business Operation Structure
- 18.5.5 Contact Information
- 18.5.6 Financial Information

19 ANALYSIS OF TOP FIVE REGASIFICATION COMPANIES WORLDWIDE

19.1 Korea Gas Corporation (KOGAS)

- 19.1.1 Overview
- 19.1.2 Business Operations
- 19.1.3 Contact Information
- 19.1.4 Financial Analysis

19.2 The Tokyo Electric Power Company, Inc.

- 19.2.1 Overview
- 19.2.2 Business Operations
- 19.2.3 Contact Information
- 19.2.4 Financial Analysis

19.3 Enagas S.A.

- 19.3.1 Overview
- 19.3.2 Subsidiaries
- 19.3.3 Business Operations
- 19.3.4 Contact Information
- 19.3.5 Financial Analysis

19.4 GDF Suez

- 19.4.1 Key Information
- 19.4.2 Subsidiary, Joint Ventures and Associated Company Operations
- 19.4.3 Business Operations
- 19.4.4 Key Financial Information

19.5 Sempra Energy

- 19.5.1 Overview
- 19.5.2 Subsidiaries
- 19.5.3 Business Operations
- 19.5.4 Contact Information
- 19.5.5 Financial Analysis

About

LNGAnalysis has announced the launch of “Global LNG Outlook and Business Opportunities to 2020- Investment Plans Steady Amidst Positive Outlook of Long Term LNG” on October 15 2013.

The new “Global LNG TOBP” from one of the world’s leading LNG analytical companies is now available for purchase online. The company notes that the current tight market conditions are expected to remain unchanged in the short term. However, beyond 2017, LNGAnalysis expects the markets to oscillate back to buyer markets with ongoing investments.

The report expects the global LNG trade volumes to increase to 414 million tonnes in 2020, largely driven by entry of new players. Despite the decline in LNG trade volume, the capital investments have not been effected and continue to grow. According to the company, \$557 billion is likely to flow into global LNG industry between 2012 and 2020.

The report further states that the industry dynamics are expected to largely alter over the forecast period with rapid changes expected in the medium to long term future. Over 110 companies are planning to foray into global LNG markets, further fragmenting the market structure and the competitive landscape.

LNGAnalysis also stated that while Europe to remain price sensitive and balancing markets, the share of spot markets in South and Central American LNG Imports continue to soar in short term future. On the other hand, Asia Pacific will remain the LNG market driver largely due to increase in imports from India, China and new entrants. African LNG export addition plans are expected to witness delays despite strong boost in upstream activities in the region, the report stated.

The report provides 70 key trends on regional and global LNG markets to 2020. Further, country wise supply-demand forecasts, investment outlook and new project details are provided in detail. Current status and likely start ups along with their possible impact on global LNG markets is provided in detail. Technology shifts, emergence of small/medium scale LNG and floating LNG markets are also assessed. In addition to company wise capacity forecasts, the report also provides competitive landscape in regional, global liquefaction and Regasification industries in detail. It also analyzes in detail the impact of the recent changes in LNG markets on players and markets.
