Abstracts

South Africa is one of the potential markets for investment in renewable energy power generation. Strong government support coupled with private sector funding for solar, wind, tidal and other renewable sources is driving South Africa market demand. Strong growth in planned renewable plant additions will drive the South Africa market size over the forecast period.

On the global front, the global renewable power market is forecast to report a growth of 4.3% CAGR over the long term future to 2025. Capacity additions, the decline in capital expenditure required for the set-up of infrastructure including solar panels, wind turbines, and other equipment will drive the global demand. Further, growth in smart grid systems and technological advancements in storage systems will boost the adoption of new and clean energy sources. Increased investments and technological advancements regarding environmental protection and reduced cost of energy production drive the global renewable power energy market size.

Relatively high investments and switching costs pose challenges to South Africa development plans of electricity generation from renewable energy sources. Supportive renewable energy power policies and encouragement for companies are being extended to harness strong South Africa renewable energy market potential.

South Africa Renewable energy power generation companies, strategic and financial investors are focusing more on the evolving value chain and are investing significantly across segments of the solar, wind, and hydro value chain. Further, South Africa companies are focusing on synergistic acquisitions to boost their market shares and profitability of renewable energy power generation.

Industries play an important role in the adoption of renewable energy resources to reduce reliance on conventional energy resources. The penetration of renewable energy sources across the rural areas has the great potential to drive South Africa renewable energy power generation market size in upcoming years.

South Africa renewable energy power generation market research covers the 2019 scenario and growth prospects of South Africa renewable energy power generation market to 2026. The South Africa renewable power market size is calculated based on power generated from renewable sources such as solar, wind, tidal, and others.

Based on energy sources, South Africa renewable energy power generation market is segmented into solar, wind, hydro, and nuclear. South Africa renewable energy power generation market analysis is performed based on total electricity demand, energy demand per capita, and macroeconomic factors such as GDP, population, and per capita income.

Report Description

The South Africa Renewable energy power generation Market, Size, Share, Outlook and Growth Opportunities 2020-2026 presents a comprehensive analysis of the country's renewable energy power generation. Key trends and critical insights into South Africa renewable energy power generation markets along with key drivers, restraints, and growth opportunities are present in the report.

South Africa solar, South Africa wind, South Africa hydro, South Africa nuclear markets are analyzed and forecast to 2026. Further, South Africa renewable energy generation including wind, solar, hydro, nuclear energy generation is forecast to 2026. Demand for all these renewable energy power sources is also forecast during the period.

South Africa renewable energy power generation market is compared against five of its competitive markets in the region to analyze the role of South Africa on regional front and benchmark its operations.

Global renewable energy power generation, Asia Pacific, Europe, Middle East Africa, North America, and Latin America renewable energy power generation market outlook is also presented in the report to provide a global perspective of the industry.

South Africa population and economic outlook are also presented in the report to provide insights and forecasts of macroeconomic factors shaping the future of South

Africa renewable energy power generation markets.

Further, business and SWOT profiles of three of the leading renewable energy power generation companies in South Africa are detailed in the report along with recent developments and their impact on overall market growth.

Contents

1. INTRODUCTION

- 1.1 Market Scope and Definition
- 1.2 Study Assumptions
- 1.3 Research Methodology

2. SOUTH AFRICA RENEWABLE INDUSTRY INSIGHTS

- 2.1 Industry Overview, 2019
- 2.2 South Africa Total Renewable Market Value Outlook, 2016- 2026
- 2.3 South Africa Renewable Market Trends and Insights
- 2.4 Key strategies Planned by Market Leaders
- 2.5 SWOT Analysis
 - 2.5.1 Key Strengths
 - 2.5.2 Key Weaknesses
 - 2.5.3 Potential Opportunities
 - 2.5.4 Potential Threats

3. SOUTH AFRICA RENEWABLE ENERGY POWER CAPACITY OUTLOOK TO 2026

- 3.1 South Africa Wind Capacity Outlook, 2016- 2026
- 3.2 South Africa Solar Capacity Outlook, 2016- 2026
- 3.3 South Africa Hydro Capacity Outlook, 2016- 2026
- 3.4 South Africa Nuclear Capacity Outlook, 2016- 2026

4. SOUTH AFRICA RENEWABLE ENERGY POWER GENERATION OUTLOOK TO 2026

- 4.1 South Africa Wind Production Outlook, 2016- 2026
- 4.2 South Africa Solar Production Outlook, 2016- 2026
- 4.3 South Africa Hydro Production Outlook, 2016- 2026
- 4.4 South Africa Nuclear Production Outlook, 2016- 2026

5. SOUTH AFRICA ELECTRICITY CONSUMPTION OUTLOOK, 2016- 2026

- 5.1 Total Electricity Demand Forecast, 2016- 2026
- 5.2 Electricity Demand per Capita Forecast, 2016- 2026

6. SOUTH AFRICA RENEWABLE INDUSTRY BENCHMARKING

- 6.1 Overall Ranking
- 6.2 Demand Index
- 6.3 Supply Index
- 6.4 Growth Index

7. SWOT PROFILES OF RENEWABLE COMPANIES IN SOUTH AFRICA

- 7.1 Company A
- 7.2 Company B
- 7.3 Company C

8. SOUTH AFRICA DEMOGRAPHIC AND MACROECONOMIC OUTLOOK TO 2026

- 8.1 South Africa GDP (Gross Domestic Product, Current Prices) Outlook, 2006- 2026
- 8.2 South Africa Disposable Income Outlook, 2006-2026
- 8.3 South Africa Population Growth Outlook, 2006-2026
 - 8.3.1 Population Outlook by Age, 2006-2026
 - 8.3.2 Population Outlook by Gender, 2006-2026
 - 8.3.3 Population Outlook by Area, 2006-2026

9. LATEST RENEWABLE INDUSTRY TRENDS AND DEVELOPMENTS

10. APPENDIX

- 10.1 LNG Analysis Expertise
- 10.2 Sources and Research Methodology
- 10.3 Contacts

I would like to order

Product name: South Africa Renewable Energy Power Market, Size, Share, Outlook and Growth Opportunities 2020-2026

Product link: <https://marketpublishers.com/r/S5687E723AC3EN.html>

Price: US\$ 1,499.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
