Guar Gum is a type of products that derived from guar splits that obtained from guar seed.

The guar gum industry concentration is relatively high. Global giant manufactures mainly distributed in India and Pakistan. The manufacturers in India have a long history and unshakable status in this field. It takes about 78.94% of global market in 2016, followed by the Pakistan of 10.85%. Manufacturers such as Hindustan Gum have relative higher level of product's quality.

The market is not only influenced by the price, but also influenced by the product performance. Although small companies have price advantage, the application is narrow to some extent due to the poor manufacture processing, cheap raw material and less diversity of products.

Over the next five years, LPI(LP Information) projects that Guar Gum will register a 29.5% CAGR in terms of revenue, reach US\$ 13900 million by 2023, from US\$ 2950 million in 2017.
