The report requires updating with new data and is sent in 48 hours after order is placed.

Rugs and Carpets are textile floor covering consisting of an upper layer of pile attached to a backing. The pile is generally either made from wool or fibers such as polypropylene, nylon or polyester and usually consists of twisted tufts which are often heat-treated to maintain their structure.

As Chinese overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with carpet industry in short supply on the market in the past few years, more and more companies enter into carpet industry, the current demand for carpet product is relatively low, lack of demand, excess supply.

Carpet product demand market there is also a certain space, but basically showing the scarcity of environment-friendly products, low-end products, and excess capacity, there is a large market demand for environment-friendly products to seize market share of imports acts.

Over the next five years, LPI(LP Information) projects that Rugs and Carpets will register a 2.6% CAGR in terms of revenue, reach US\$ 24700 million by 2023, from US\$ 21200 million in 2017.
