The report requires updating with new data and is sent in 48 hours after order is placed.

Wheelchair cushion is needed to keep comfort and healthy. There are many types such as air cushion, gel cushion, foam cushion and others. Consumers can choose according to their needs.

Wheelchair cushion has many types such as air cushion, gel cushion, foam cushion and others. Foam cushion sale was the largest in 2016 with a share of 49.23%. Air cushion and gel cushion separately took 16.48% and 31.29% in 2015. In the future, we predict that gel cushion will be used more and more widely because of its performance quality. Due to mature technology of wheelchair cushion and abundant raw material resource, this industry is quite scattered. Global major manufacturers are Comfort Company, Sunrise Medical, Supracor, Roho, Varilite and etc. Also there is no industry standard in this industry, so wheelchair cushion quality varies greatly.

Over the next five years, LPI(LP Information) projects that Wheelchair Cushion will register a 4.6% CAGR in terms of revenue, reach US\$ 1070 million by 2023, from US\$ 820 million in 2017.
