## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global 1,2,4,5-Tetramethylbenzene (Durene) market for 2018-2023.

1,2,4,5-tetramethylbenzene, namely durene, is a kind of colorless crystals solid powder (some companies' products are liquid for their low technology) with the formula  $C_6H_2(CH_3)_4$ . They can be divided into industry grade and reagent grade. They can be used for manufacturing PMDA, as organic synthesis intermediate or in other fields. At present the abroad companies usually put the 1,2,4,5-tetramethylbenzene used for the manufacture of PMA & PMDA directly, very few companies sold 1,2,4,5-tetramethylbenzene products. In China, the 1,2,4,5-tetramethylbenzene manufacturers sell them as the products, and partly of the companies used them as materials for the producing of PMA & PMDA too. So in this report we only static the products which transferring in the market not including the products which are not sold in the market. However, at present only the China manufacturers sold their products in the market, so in this report the companies are all China players.

The main production process is to use C10 aromatic hydrocarbon, a kind of by-product of petrochemical industry, as the raw material. The big producers' production facilities are usually located close to the supplier of raw material. Therefore, it's convenient for them to obtain it.

The Global's annual production of durene grew from 24540 MT to 29057 MT with an increase of 2.85% in the past 5 years from 2010 to 2014. The data shows us an increasing trend of production. The top 3 contributors are Yunnan Jiehua, Xingyuan, Hualun. Their total production is 13,025 MT which accounts for 44.83% of the Global's total production in 2014.

Over the next five years, LPI(LP Information) projects that 1,2,4,5-Tetramethylbenzene (Durene) will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

This report presents a comprehensive overview, market shares, and growth opportunities of 1,2,4,5-Tetramethylbenzene (Durene) market by product type, application, key manufacturers and key regions.
