In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Behavioral Rehabilitation market for 2018-2023.

The latest trend gaining momentum in the market is the advent of online counseling. With the growing influence of the internet, the physicians are providing treatments with the help of mobile applications and online video calling for behavioral disorders. The physicians indulge in therapy sessions in person, and this method has proved to be beneficial for people suffering from behavioral disorders. The physicians consult with the patients and accordingly determines the type of treatment.

The growing prevalence of behavioral disorders and increasing awareness of the available therapeutic options are major driving factors for the market. Rising government initiatives, such as Substance Abuse and Mental Health Services Association grants and The Affordable Care Act is expected to boost the market growth during the forecast period. Rapid urbanization and technological modernization have resulted in a significant increase in behavioral disorders. Individuals aging between 16-25 are more vulnerable to additions such as drugs, alcohol, and food and become socially dysfunctional. North America is dominating behavioral rehabilitation market as rising incidences of mental disorders and availability of treatment, which are driving factors responsible for the high market share.
