Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Bitcoin Pooling Platform market for 2018-2023.

As the computing level of the bitcoin whole network is rising exponentially, a single device or a small amount of power can not get the block reward provided by the bitcoin network on the bitcoin network. After the whole network has been upgraded to a certain level, it is too low to get the reward probability. Some of the "bitcointalk" geeks have developed a way to combine a small amount of power together, and the web site that is built in this way is called the "Mining Pool".

Over the next five years, LPI(LP Information) projects that Bitcoin Pooling Platform will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
