In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Cable Raceway Systems market for 2018-2023.

Cable Raceway System refers to is a channel to run cables through, that mounts on a wall, or a desk, or some other surface, concealing wires or cables so your set-up looks nice and pretty.

In the coming years there is an increasing demand for cable raceway system in the regions of developing regions that is expected to drive the market for more advanced cable raceway system. More-intense competition, launches in introducing new products, increasing of spending on general industry, retrofitting and renovation of old technology, increasing adoption of cable raceway system will drive growth in developing regions market.

The cable raceway system industry market is low concentrated as the manufacturing technology of cable raceway system is relatively matures than some high-tech equipment. And some enterprises, like Legrand SA, HellermannTyton, Schneider-Electric, etc. are well-known for the wonderful performance of their cable raceway system and related services. The revenue of cable raceway system is related to downstream industries and global economy. As there will always be some uncertain in the global economy in the following years, the growth rate of cable raceway system industry may not keep that fast. But it is surely forecasted that the market of cable raceway system is still promising.

The impact on the cost and availability of raw materials and certain components is uncertain due to potential supply changes. The costs of raw materials have a significant

impact on the level of expenses. If the prices of raw materials and related factors such as energy prices increase, and if new companies cannot pass those price increases on to customers, their results of operations and financial condition would suffer.

Although the market competition of cable raceway system is fierce globally, there are many enterprises can obtain considerable profit form the manufacturing and marketing of cable raceway system and that is the reason that we believe there will also be enterprises enter this market. But it is suggested that enterprises those have plans to enter this industry have careful analysis of this market and the advantages or disadvantages of themselves.

Over the next five years, LPI(LP Information) projects that Cable Raceway Systems will register a 6.9% CAGR in terms of revenue, reach US\$ 870 million by 2023, from US\$ 580 million in 2017.
