Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Caviar market for 2018-2023.

Caviar is an expensive delicacy consisting of the unfertilized eggs (roe) of sturgeon brined with a salt solution. Classic caviar comes primarily from Iran or Russia, harvested by commercial fishermen working in the Caspian Sea. A specific species of sturgeon called beluga provide what many consider to be the best in the world.

In consumption market, the growth rate of global consumption is rapidly rising. Europe and USA are still the mainly consumption regions due to the advanced production technology and rapid development of economy.

We tend to believe this industry is an emerging industry, Tending to mature. And the consumption increasing degree will show a smooth growth curve. For product prices, the slow downward trend in recent years will maintain in the future as competition intensifies. Besides, prices gap between different brands will go narrowing gradually. Also, there will be fluctuation in gross margin.

Over the next five years, LPI(LP Information) projects that Caviar will register a 5.7% CAGR in terms of revenue, reach US\$ 500 million by 2023, from US\$ 360 million in 2017.

This report presents a comprehensive overview, market shares, and growth opportunities of Caviar market by product type, application, key manufacturers and key regions.
