## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Cosmetics market for 2018-2023.

Cosmetics are care substances used to enhance the appearance or odor of the human body. Traditionally cosmetics include skin care, color cosmetics, hair care, nail care, oral care and perfumery & deodorants.

In terms of value, USA sales account for 13%-14% of total market share, EU growing at a good pace owing to large population and high economic growth rate occupies the 20% market share of the global consumption value. The increasing demand for skin care drives Cosmetics industry developing fast. For the brand owners, such as L'Oreal, Shiseido and Kao are very popular in the world.

For the production, China is the largest production region contributing to nearly 23%-25% market share. They provide a wide range of services for many famous brands with lower processing cost.

Due to the higher price and gross margin of high-end products compared with the low-end products, in the next few years, companies will invest much more on R&D and transfer to high-end product field.

Over the next five years, LPI(LP Information) projects that Cosmetics will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

This report presents a comprehensive overview, market shares, and growth opportunities of Cosmetics market by product type, application, key manufacturers and key regions.
