Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Event Management Services market for 2018-2023.

Event Management Services is the application of project management to the creation and development of large scale events

With the increasing globalization there will be a surge in the demand of event management services with companies opting for different companies offering them a myriad of services.

Americas will dominate the market throughout the forecast period. The region was the early adopter of event management as a service and the expected increase in the adoption of cloud-based event management services by enterprises and government organizations will fuel the growth of the market in the Americas in the next few years. APAC is one of the fastest growing regions and has a favorable market for event management and service vendors. The region has a broad customer base across industries, and thus needs brand marketing activities to reach out to potential customers.

Over the next five years, LPI(LP Information) projects that Event Management Services will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

This report presents a comprehensive overview, market shares and growth opportunities of Event Management Services market by product type, application, key companies and key regions.
