Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global First Aid Kits market for 2018-2023.

A first aid kit is a collection of supplies and equipment for use in giving first aid, and can be put together for the purpose by an individual or organization or purchased complete. There is a wide variation in the contents of first aid kits based on the knowledge and experience of those putting it together, the differing first aid requirements of the area where it may be used and variations in legislation or regulation in a given area.

As an useful and convenient tool needed in emergency, first aid kit are widely produced and sold worldwide, especially in developed countries such as United States, Japan, Germany and etc. Currently, Europe is the largest consumption market of first aid kit worldwide, driven by the wide awareness of the necessity of having a first aid kit at home or when going outside. Consumption market of first aid kit in United States and Japan are also quite remarkable. However, market in these regions is already mature, and doesn't grow that fast any longer. Consumption market in developing countries and regions are regarded as emerging market of first aid kit and the main market growth driven factor in the following decade.

As to the production of first aid kit, China has become the world's largest producer of first aid kit based on production volume. But products produced in China are relatively cheaper, thus China is not the world No.1 in the production revenue of first aid kit. The production of first aid kit in some other countries such as India and Brazil are also growing fast, and it is forecasted that production market share of first aid kit in these regions will keep on growing.

Over the next five years, LPI(LP Information) projects that First Aid Kits will register a

xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
