Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Flavour for Pet Food market for 2018-2023.

While people have long been concerned with the flavors that they put into their foods, it is only in recent years that an increasing number of flavor companies have turned their sights on the pet food industry. However, the flavoring of pet foods can be important in creating healthy foods and treats for our furry friends. Pet food flavors are more complex than some might imagine, and it is important to consider how pet food flavors can affect an animal's health. This is especially true as different pet foods hit the market featuring vegetarian-compliant ingredients, or that are designed in order to maintain a pet's health and aid pet owners in keeping their dog or cat at a healthy weight.

Over the next five years, LPI(LP Information) projects that Flavour for Pet Food will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
