Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Foodservice Packaging market for 2018-2023.

The variety in demand for packaging solutions brings into play a key role for classifying the products on the basis of their function in protecting the goods and their appearance-enhancing attributes.

An increase in the overall consumption of products across the globe has resulted in a fluctuation in the prices of packaged goods.

Rising number of multinational quick service restaurants (QSR) worldwide is leading to a surge in demand for foodservice disposables. Such food service restaurants do not invest in resources for cleaning and maintenance of serving containers.

India is projected to be fastest-growing country-level market in the region for the food service packaging market. United States is projected to grow at the second-highest rate between 2017 and 2022, with the U.S. registering the highest growth rate in the region. Over the next five years, LPI(LP Information) projects that Foodservice Packaging will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

This report presents a comprehensive overview, market shares and growth opportunities of Foodservice Packaging market by product type, application, key companies and key regions.
