Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Gold Loan market for 2018-2023.

In the process of the gold pledge loan, in order to avoid the loan risk caused by the fluctuation of the gold market price, the borrowers and the borrowers need to set up and abide by the cordon line and the flat line of the pledge of gold. When the price of the gold market falls to the warning line, the bank will promptly notify the customer to add or return some of the loan in advance, making the amount of the pledge of gold more than equal to the principal of the loan. When the market price of the pledged gold falls to the closing line, the bank will sell the gold in pledge and return the loan in time.

The report provides separate comprehensive analytics for the US, Canada, Japan, Europe, Asia-Pacific, Latin America and Rest of World. Annual estimates and forecasts are provided for the period 2018 through 2025. Also, a five-year historic analysis is provided for these markets. Market data and analytics are derived from primary and secondary research.
