In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global High Pressure Laminate (HPL) market for 2018-2023.

Decorative laminates are laminated products primarily used as furniture surface materials or wall paneling. It can be manufactured as either high- or low-pressure laminate, with the two processes not much different from each other except for the pressure applied in the pressing process.

At present, the manufactures of High Pressure Laminate (HPL) are concentrated in North America, Europe, Japan, China, India and Asia Pacific other. India is the largest production area in the world, which occupied about 26.56% in 2016. The following areas is China. The global leading players in this market are Fletcher Building, Wilsonart, Greenlam, EGGER, ATI Laminates, ASD, Kronospan, Trespa International, PFLEIDERER, Merino, etc.

HPL products demand market has a certain space, but basically showing the scarcity of high-end products, low-end products, excess capacity, there is a large market demand for high-end products to seize market share, local enterprises export more low-end products over capacity or molding process basic Materials.

Although sales of HPL products brought a lot of opportunities, the study group recommends the new entrants just having money but without technical advantage and downstream support do not enter into the high pressure laminate field.

Over the next five years, LPI(LP Information) projects that High Pressure Laminate (HPL) will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
