Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Home Furnishings market for 2018-2023.

Home Furnishing refers to anything that is used to furnish a home, including both furniture and things used to decorate the home and make it more hospitable.

Home Furnishing refers to anything that is used to furnish a home, including both furniture and things used to decorate the home and make it more hospitable. The market can be segmented into several broad groups: Home Furniture, Home Textile, Wall Decor and Others. Home Furniture is the biggest market share while Wall Décor is the fastest growing sector in recent years.

Due to the higher price and gross margin of high-end products compared with the low-end products, in the next few years, companies will invest much more on R&D and transfer to high-end product field. In the future, the production and consumption is estimated to continue developing with a stable growth rate. To meet the large and increasing demand, more and more players will go into this industry.

Over the next five years, LPI(LP Information) projects that Home Furnishings will register a 5.2% CAGR in terms of revenue, reach US\$ 988200 million by 2023, from US\$ 728500 million in 2017.

This report presents a comprehensive overview, market shares, and growth opportunities of Home Furnishings market by product type, application, key manufacturers and key regions.
