Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Jute Bags market for 2018-2023.

Jute is a natural fibre obtained from the bark of the white jute plant or the tossa jute plant. It is also known as the golden fibre owing to its golden and silky shine, and is extensively used in the manufacturing of packaging products and textiles.

As a packaging material, jute offers advantages such as good insulation, low thermal conductivity and moderate moisture retention. On account of this, jute bags are used as packaging material for bulk goods as well as shopping and gift bags.

Over the next five years, LPI(LP Information) projects that Jute Bags will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

This report presents a comprehensive overview, market shares, and growth opportunities of Jute Bags market by product type, application, key manufacturers and key regions.
