In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Lacrosse Equipment market for 2018-2023. Lacrosse is a team sport played with a lacrosse stick and a lacrosse ball. Players use the head of the lacrosse stick to carry, pass, catch, and shoot the ball into the goal. The sport has four versions that have different sticks, fields, rules and equipment: field lacrosse, women's lacrosse, box lacrosse and intercross. The men's games, field lacrosse (outdoor) and box lacrosse (indoor), are contact sports and all players wear protective gear: helmet, gloves, shoulder pads, and elbow pads. The women's game does not allow body contact but does allow stick to stick contact. The only protective gear required for women players is eyegear, while goalies wear helmets and protective pads. Intercrosse is a mixed-gender non-contact sport that uses an all-plastic stick and a softer ball.

Over the next five years, LPI(LP Information) projects that Lacrosse Equipment will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
