In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Sports Shoes market for 2018-2023.

Sport Shoes is designed and manufactured according to the sports characteristics of the people to participate in. The soles of the Sport Shoes are different with the ordinary shoes, which can play a buffer role to prevent the injuring. Therefore, the performance of Sport Shoes soles and uppers material determines the ability of its injury prevention. In the production of the Sport Shoes, raw materials, production processes have determined the quality of Sport Shoes.

As global overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with Sport Shoes industry in continuous demand growth on the market in the past few years, more and more companies enter into Sport Shoes industry, the current demand for Sport Shoes product is relatively low, lack of demand, excess supply. Low quality Sport Shoes products on the market do not sell well; Sport Shoes's price is lower than past years. The signal of market price change indicates the trend in the Sport Shoes industry, low-end product has excess capacity, high-end product is in short supply.

With more and more enterprise entering the Sport Shoes industry, the competition is fierce; people pay more attention on the quality of the Sport Shoes, therefore, the material development of the Sport Shoes is the opportunity for the Sport Shoes brand.

Over the next five years, LPI(LP Information) projects that Sports Shoes will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
