Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Tattoo Needles market for 2018-2023.

The tattoo needles are having a specific design with many sharp ends attached to a bar. These ends were called the sharps, which may vary from three to nine or more based on the image to be imprinted on to the skin, at the desecration of the artist. The tattoo needles are used to penetrate human skin to supply the ink on to it. The liner needles on the other hand are used to apply ink to the outline to form the tattoo. It was just a single needle in the application until a couple of decades ago; however, now application of single needle is very rare and at a minimum, three needles are utilized normally to form the outline.

Global giant manufactures mainly distributed in U.K, Germany, USA and Canada. The manufacturers in the UK, USA and Germany, has a long history and unshakable status in this field. Manufacturers such as Mithra, Eikon Device, Pro Needle, Magic Moon, Bullet and Cheyenne have relative higher level of product's quality. As to U.K, Pro Needle, Barber DTS, Black Widow and Powerline have become as leaders. In Germany, Magic Moo and Cheyenne lead the technology development. Most of Chinese manufactures locate in Wujiang City from Jiangsu province.

The key consumption markets locate at developed countries. Europe takes the market share of 40%, followed by the USA with 19% and China's consumption market takes about 15% in 2016.

We tend to believe this industry becomes more and more mature, and the consumption increasing rate will show a smooth curve.

Over the next five years, LPI(LP Information) projects that Tattoo Needles will register a
