In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Teeth Whitening Products market for 2018-2023.

Teeth whitening products is products that can either restore natural teeth shade or whiten teeth beyond natural shade.

Teeth whitening products can be divided into two categories: surface whiteners and bleaches.

Surface whiteners help remove surface stains physically or chemically. Products in this category mainly include dental scalers, chewing gums, toothpastes, gels and whitening kits, rinses, paint-on films and strips.

Bleaches are generally based on peroxides and are able to change the inborn color of teeth.

Based on the different conditions of teeth, two different kinds of methods will be adopted accordingly. Vital bleaching is done on “living” teeth and can remove the color caused by food, tobacco or age. While for teeth which is no longer “alive” non-vital bleaching will be applied to alter the changed color caused by root canal.

Global giant manufactures mainly distributed in U.S. and E.U. The manufacturers in U.S. have a long history and unshakable status in this field. Manufacturers such as Colgate Palmolive and P&G have relative higher level of product’s quality. As to U.K., Unilever has become as a global leader. In Japan, Lion Company leads the technology

development. Most of Chinese manufactures locate in Guangdong and Yunnan province.

Many companies have several plants, usually located in the place close to aimed consumption region. There are international companies set up factories in China either, such as P&G whose plant is located in Guangdong and Jiangsu province. Some companies usually take a joint venture enter into aim market, like Colgate who take their advantage merge with Sanxiao, whose key market is in China.
