Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

In this report, LP Information covers the present scenario (with the base year being 2017) and the growth prospects of global Vinyl Records market for 2018-2023. Promoting vinyl record as special editions/deluxe product will be a key trend for market growth. Various players are trying to differentiate their product offerings launching special and deluxe editions of their copy. The manufacturers are now coming up with tailor made art to colored versions and patterned vinyl record to induce different customer segments. Manufacturers also receive customization orders for variations. Limited editions are now more in demand for customers as people see vinyl record as a luxury niche and maintain it as a collection.

According to the report, aesthetic appeal of vinyl records will be a key driver for market growth. Listening to music as an activity has given high importance to the digital form of music, and to the sales of digital music players. Over the years, the medium of music has changed in form and content. However, for an audiophile or a music lover, vinyl records are still considered to be an auratic product. Vinyl records still stand as one of the fastest selling and growing mediums of music, despite the acceptance of digital media.

Over the next five years, LPI(LP Information) projects that Vinyl Records will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
