Architecture Curtain Wall is an outer covering of a building in which the outer walls are non-structural, utilized to keep the weather out and the occupants in. Since the curtain wall is non-structural, it can be made of lightweight materials, thereby reducing construction costs. When glass is used as the curtain wall, an advantage is that natural light can penetrate deeper within the building. The curtain wall façade does not carry any dead load weight from the building other than its own dead load weight. The wall transfers lateral wind loads that are incident upon it to the main building structure through connections at floors or columns of the building. A curtain wall is designed to resist air and water infiltration, absorb sway induced by wind and seismic forces acting on the building, withstand wind loads, and support its own dead load weight forces.

The Midwest of United States is the largest consumption of Architecture Curtain Wall, with a consumption market share of 26.74% in 2016.

Market competition is Oldcastle BuildingEnvelope, Permasteelisa, Apogee Enterprises, Inc, Kawneer Company, Schüco and YKK AP etc. which are the leader of the industry, and hold the key technologies and patents, with high-end customers. They have formed United States market channel of the industry. While the Architecture Curtain Wall industry remains fragmented with plenty of manufacturers and top 5 manufacturers just held about 17.28% revenue market share.

The Architecture Curtain Wall mainly used in the Commercial Building, Public Building and Residential Building, the Commercial Building is the largest sales filed, the sales market share is 62.47% in 2016.

Although sales of Architecture Curtain Wall brought a lot of opportunities, the study group recommends the new entrants who just having money but without technical

advantage and downstream support, do not enter into the Architecture Curtain Wall field hastily.

Over the next five years, LPI(LP Information) projects that Architecture Curtain Wall will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
