Barcode verifiers are used to guarantee that the barcodes you print are high quality and 100% compliant to your symbology specifications. Barcode verifiers are able to provide a detailed report about the print and read quality of a barcode as set out by ANSI and ISO specifications. Additionally, barcode verifiers are able to suggest remedial actions based on the deficiency. Barcode verifiers are ideal for businesses that are spending time and money on re-labeling costs, rejected shipments due to label errors, and compliance fines.

Europe is the largest consumption Country of Barcode Verifiers, with a consumption value market share nearly 31.05% in 2016.
