Bus Rapid Transport Systems (BRT) is an innovative, high capacity, lower cost public transit solution that can significantly improve urban mobility. This permanent, integrated system uses buses or specialized vehicles on roadways or dedicated lanes to quickly and efficiently transport passengers to their destinations, while offering the flexibility to meet transit demand. BRT systems can easily be customized to community needs and incorporate state-of-the-art, low-cost technologies that result in more passengers and less congestion.

The bus rapid transport systems is relatively concentrated, the production of top eight manufacturers account about 80% of global production. The high-end products mainly come from Latin America and China.

In the world wide, the plants of major manufactures mainly distribute in Latin America and China, In Latin America, transnational companies, like Volvo and Volkswagen, are the leading manufactures in this area. As to China, Yutong and JINLONG have become the leader of domestic manufactures.
