The report requires updating with new data and is sent in 48 hours after order is placed.

Document Scanner is a device that converts a document or text from its paper form into digital data. It usually consists of hardware, software and signal lines or power lines.
Global giant manufactures mainly distributed in U.S. and Japan. The manufacturers in U.S. have a long history and unshakable status in this field. Manufacturers such as HP and Kodak have relative higher level of product's quality. As to Japan, Fujitsu has become as a global leader. Most of Chinese manufactures locate in Beijing and Shanghai cities.
In the international market, the marketing channels characteristic differ from company to company.
The international leading companies prefer taking own sales department to expand market. The giant companies are more likely to set their own big agents in some major countries and regions taking charge of regional business building their international market position.
Over the next five years, LPI(LP Information) projects that Document Scanner will register a 4.5% CAGR in terms of revenue, reach US$ 1450 million by 2023, from US$ 1120 million in 2017.
