Eyewear is device that corrective or protective eyes. This report include spectacles, contact lenses, sunglasses and so on.

The eyewear market has gained significant growth in the recent years. Emerging countries such as India and China have been the most prominent markets that have tremendous opportunities. Increasing cases of visual impairment and eye defects coupled with inclination for latest fashion trends are the major factors driving the growth of the global eyewear market. Growing prominence of digital devices and gadgets among younger population has adversely affected the eyes, leading to increasing incidences of eye disorders. Therefore, the demand for vision correction products have risen sharply. Additionally, factors such as distinct increase in disposable income and improved standard of living in the developing economies such as India and Brazil have driven the need for premium quality, branded eyewear.

Over the next five years, LPI(LP Information) projects that Eyewear will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
