Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Cashmere clothing is made from cashmere and cashmere yarn, including various sweaters, coats, trousers and other garments.

In the report, fashion luxury cashmere clothing mainly refers to the clothing product with customers targeted the middle and top income population in the city.

China is the world's largest supplier of raw materials, accounting for about 70% of cashmere in the world, while Italy is China's largest export destination, in April 2017; Italy imported 98 tons of cashmere from China, Account 78% of the month's exports.

China is the largest consumption market, due to the rapid growth of the national economy. Many famous brands have set up offices in China, like Loro Piana and Brunello Cucinelli.

Although China is the largest cashmere garment manufacturer in the world, its own brand market share is very low. Most of them exist as OEM. This has led to the local enterprises in China at the bottom of the interests of the value chain for a long time. Over the next five years, LPI(LP Information) projects that Fashion Luxury Cashmere Clothing will register a 3.9% CAGR in terms of revenue, reach US\$ 3230 million by 2023, from US\$ 2580 million in 2017.
