The report requires updating with new data and is sent in 48 hours after order is placed.

Foot Massager is instrument or equipment dedicated to the human foot massage to promote blood circulation, in order to achieve health care function.

As international economic situation is complicated, in the next few years there will be many uncertainties although. Due to the government' policy and the high production of Foot Massager etc. in the international market, the current demand for Foot Massager product is relatively high in the mature market, such as Japan and US, but the demand in China is relatively higher due to the downstream demand.

Japan, US, and China, are major consumption regions in Foot Massager production market.

Although sales of Foot Massager brought a lot of opportunities, the study group recommends the new entrants who just having money but without technical advantage and downstream support, do not to enter into the Foot Massager field hastily.

Over the next five years, LPI(LP Information) projects that Foot Massager will register a 1.0% CAGR in terms of revenue, reach US\$ 3990 million by 2023, from US\$ 3760 million in 2017.
