Gluten is the natural protein derived from wheat or wheat flour. In its freshly extracted wet form it is known as gum gluten which when dried yields a cream-to-tan-colored, free-flowing powder of high protein content and bland taste. When re-hydrated, it regains its original characteristics. So unique is the functionality of wheat gluten and so persistent is the structural integrity after cooking, it appears to have no functional competitor. In 2015, the global gluten market is led by USA. EU is the second-largest region-wise market. At present, the major manufacturers of gluten are concentrated in USA, EU, China and Australia. Manildra Group is the world leader, holding 17.6 % consumption market share in 2015.
