## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Hair masks are nourishing hair treatments for your hair. They often contain oils, butters and other hydrating ingredients to supercharge your hair conditioning efforts. Plus, they spend more time sinking into and nourishing your hair than your average shampoo or conditioner, meaning that you can get even more dramatic benefits even in a single use.

Hair care routines have become more complex for Ukrainians in recent years. Consumer awareness of additional products necessary for hair care (eg masks, conditioners) is rising in parallel with rapidly widening assortments of such products. Similar to skin care, hair care is becoming a multi-stage routine for many. In addition, the practice of washing hair less often and using dry shampoo alternatives has appeared more recently.

Over the next five years, LPI(LP Information) projects that Hair Mask will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.
