Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Kidswear is clothing for children. These colorful clothes are designed for boys, girls and babies with various types like suits, jackets, sweaters, pants, T-shirts, etc. Cotton is the most used material of kidswear due to its characters like sweat-absorbent, soft and comfortable. Wool, fur, linen and silk are also the major fabric materials.

United States is the largest consumer with about 21% share of consumption market. While it also supply about 9% of total production in the global market. The population of children is increasing stably and the demand is increasing correspondingly.

China is the largest supplier of kidswear with about 25% share of manufacturing market. Products from China are largely exported to US, Europe and other countries. While mass foreign brands products are imported into China at the same time. For the consumption market, foreign brands occupied half of the total value. And domestic brands enjoy about 15%, the last products don't have known brands.

Over the next five years, LPI(LP Information) projects that Kidswear will register a 4.6% CAGR in terms of revenue, reach US\$ 131000 million by 2023, from US\$ 100000 million in 2017.

This report studies the global market, especially in North America, Europe, Asia-Pacific, South America, Middle East and Africa, focuses on the top 5 players in each region, with sales, price, revenue and market share from 2013 to 2018, the top players:
