Bedding, also known as bedclothes or bed linen, is the materials laid above the mattress of a bed for hygiene, warmth, protection of the mattress, and decorative effect. Bedding is the removable and washable portion of a human sleeping environment. Multiple sets of bedding for each bed will often be washed in rotation and/or changed seasonally to improve sleep comfort at varying room temperatures. In American English, the word bedding generally does not include the mattress, bed frame, or bed base (such as box-spring), while in British English it does. In Australian and New Zealand English, bedding is often called Manchester, in this report, we use American standards. And the Luxury Bedding.

Europe was the largest revenue market with a market share of 34.22% in 2012 and 32.63% in 2017 with an increase of -1.59 %. North America and China ranked the second and third market with the market share of 26.81% and 10.80% in 2016.

Luxury Bedding companies are mainly from Europe and United States, the industry concentrate rate is low. The top three companies are WestPoint, Pacific Coast and Hollander, with the revenue market share of 9.80%, 6.99% and 5.67% in 2016.

The growth of the Luxury Bedding market is largely driven by downstream applications. What is more, governments of numerous countries are encouraging the adoption of new kinds of coatings as they are eco-friendly and cost-efficient.

Over the next five years, LPI(LP Information) projects that Luxury Bedding will register a 2.5% CAGR in terms of revenue, reach US\$ 2480 million by 2023, from US\$ 2140 million in 2017.
