A shin guard or shin pad is a piece of equipment worn on the front of a player's shin to protect them from injury. These are commonly used in sports including association football (soccer), baseball, ice hockey, field hockey, lacrosse, rugby, cricket, and other sports. This is due to either being required by the rules/laws of the sport or worn voluntarily by the participants for protective measures.

Europe has the largest global export quantity and manufacturers in Shin Guards market, while the North America is the second sales volume market for Shin Guards in 2016.
