The report requires updating with new data and is sent in 48 hours after order is placed.

Table tennis, also known as ping-pong, is a popular sport in which two or four players hit a lightweight ball back and forth across a table using a small bat. Originated in Europe, table tennis is popular worldwide today.

The global average price of table tennis balls is in the increasing trend, from 312 USD/K Unit in 2012 to 382 USD/K Unit in 2016. The huge increase in 2014 and 2015 is largely due to the introduction of seamless table tennis balls.

China is the largest supplier of table tennis, with a production market share nearly 92.5% in 2016. Japan is the second largest supplier of table tennis, enjoying production market share nearly 5.07% in 2016. Though Germany manufacturer Weener have introduced new technology, the market share of China will also be slowly increasing in the next several years due to low labor cost and materials cost.

China is also the largest consumption place, with a consumption market share nearly 69.14% in 2016. Following China, Europe is the second largest consumption place with the consumption market share of 10.17%.

Over the next five years, LPI(LP Information) projects that Table Tennis Balls will register a 9.1% CAGR in terms of revenue, reach US\$ 290 million by 2023, from US\$ 170 million in 2017.
