Acrylic Carton Sealing Tapes are available in various widths, lengths, and thicknesses. The acrylic adhesive systems are also of 3 types, which is water-based, solvent-based, and solid. The acrylic carton sealing tapes are suitable for all-temperature box sealing ranging from as less as 40 F and greater than 120 F. The acrylic carton sealing tapes provide high clarity, excellent shear strength performance along with controlled unwinding facility to ease the dispensing on automatic or manual sealing machines. The tapes used for the domestic or economic purpose may be less than 1.5 mils thick whereas for heavy-duty purposes the acrylic carton sealing tapes used are over three mils thick. The acrylic carton sealing tapes are used for many purposes, as these maintain their integrity and hold their contents securely. The acrylic carton sealing tapes should be able to perform the required task in a well and proper manner utilizing its backing strength and adhesive system. The acrylic carton sealing tapes are made with high-shear adhesives. Having a high shear value means the acrylic carton sealing tape will have a better or higher holding capacity on the boxes.
