Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Adult seamless underwear is a type of underwear that is designed without any seams or stitching along the edges. This design helps to prevent chafing and irritation, making them more comfortable to wear for extended periods of time. Seamless underwear is often made from soft, stretchy materials like nylon or spandex, which allows for a snug and supportive fit without any digging or pinching. These underwear are available in a variety of styles, including briefs, thongs, and boyshorts, making them suitable for different preferences and body types. Overall, seamless underwear is a popular choice for those looking for a smooth and comfortable undergarment option.

The global Adult Seamless Underwear market size is projected to grow from US\$ million in 2023 to US\$ million in 2030; it is expected to grow at a CAGR of % from 2024 to 2030.
