All Weather Flashing Tape is a self-adhesive sealing tape designed for waterproofing and weatherproofing applications in construction. Made primarily from butyl rubber, asphalt, or modified polymer compounds, it offers excellent resistance to UV, temperature variations, and moisture. It is widely used for sealing joints on roofs, windows, ducts, curtain walls, and below-grade structures, maintaining strong adhesion and leak prevention under all weather conditions.

The upstream sector mainly consists of suppliers of butyl rubber, asphalt, polyethylene films, aluminum foil, and pressure-sensitive adhesives, whose price fluctuations directly affect product costs. The downstream market includes applications in building waterproofing, residential renovation, infrastructure projects, roofing and wall sealing, as well as transportation and industrial maintenance. Increasing demand for energy-efficient and durable construction materials is driving market expansion.
